## Letter: Zoning task force needs expanding

[1]

Mar  
21  
2014

The suggestion from the Smithtown Town Board to create a zoning task force for the Kings Park industrial area is a simple-sounding solution to a more complicated problem ["Focus on a fix," News, March 18].

The ongoing zoning violations in Kings Park are just one of many concerns affecting Smithtown residents' quality of life. I believe we should discuss the environment, a master plan and smart growth development by establishing a Smithtown Planning and Development Association.

This association would make recommendations to the town board and consider all of Smithtown, not just Kings Park.

Richard S. Macellaro, Kings Park
